PRASHANT VISHWAKARMA

Computer Science Student | Aspiring Software Developer

+918966907794 prashant99gaurav@gmail.com GitHub LinkedIn Bhopal, India

PROFESSIONAL SUMMARY

Computer Science undergraduate (B.tech CSE, expected 2027) with hands-on experience in **full-stack development, data analysis, and machine learning**. Skilled in **React, Tailwind CSS, Node.js, REST APIs, MySQL, Python, Pandas, and Scikit-learn**. Experienced in building and deploying end-to-end web applications and developing AI/ML solutions through technical internship experience. Strong foundation in **data structures, algorithms, SQL, and Git**, with a focus on building practical, data-driven software solutions.

WORK EXPERIENCES

Software Engineering & Development Intern | Internship

May 2026 - Jul 2026

MPOnline Limited

- Completed structured training in **software engineering practices**.
- Built and delivered a project-based assignment applying **core software engineering concepts**.
- Collaborated with a team to complete practical assignments under deadline, strengthening **Git-based collaboration** and debugging skills.

Technologies / Skills Used : *Node.js, Tailwind CSS, React*

AI/ML Intern

May 2026 - Jul 2026

MPOnline Limited

- Completed structured **AI/ML training**, applied through hands-on technical assignments.
- Built a **project-based ML implementation**, training and evaluating a model.

Technologies / Skills Used : *Node.js, MongoDB, Tailwind CSS, Express, React*

PROJECTS

Diabetes Prediction App | Github

Oct 2026 - Oct 2026

Full-Stack Developer (React.js, Node.js, Express.js, Python/Flask, Machine Learning)

- Built a full-stack **Diabetes Prediction App** using React.js, Node.js, Express.js, and Python Flask to generate diabetes risk predictions using a machine learning model.
- Developed a REST API to connect the React frontend with the backend and Flask-based ML service for prediction processing.
- Implemented an interactive dashboard with **prediction statistics, pie chart visualizations, and prediction history** stored using localStorage.
- Designed a responsive interface using **Tailwind CSS** and integrated the trained model (`diabetes_model.pkl`) for predictions.

Tech Stack: React.js, Vite, Tailwind CSS, Node.js, Express.js, Python, Flask, Machine Learning, Recharts

Technologies / Tools Used : *React, Node.js, Tailwind CSS, React.js, Vite, Express.js, Python, Flask, Machine Learning, Recharts, Git, GitHub*

MovieFinder — Movie Discovery & Recommendation System | Github

Lead Developer

- Built a **movie discovery platform** on the **TMDB API** supporting search, trending/popular titles, genre filtering, and rating/year sorting.
- Designed and implemented a content-based **recommendation engine** ranking movies by genre and rating similarity to generate personalized suggestions.
- Built a persistent, authentication-free watchlist using localStorage, enabling users to save and manage titles across sessions.
- Led end-to-end development as sole/lead developer, from architecture through deployment.

Technologies / Tools Used : *React, Vite, Tailwind CSS*

SKILLS

Databases :	MySQL, MongoDB
Frameworks & Libraries :	React, Node.js, Tailwind CSS
Languages :	English, Hindi
Programming Languages :	Java, Python, JavaScript, SQL
Soft Skills :	Communication & Presentation, Problem-Solving, Team Collaboration, Time Management, Adaptability
Tools & Platforms :	Git, GitHub, AWS, Postman, Vercel
AI / Machine Learning :	Machine Learning, Python, Pandas, Data Visualization

EDUCATIONS

VIT University | Bhopal

Jul 2023

B.Tech, Computer Science & Engineering (E-Commerce)

CGPA : 7.69 / 10

- **B.Tech, Computer Science & Engineering (E-Commerce)**, VIT University, **CGPA: 7.69 / 10**

CERTIFICATIONS

- **Deep Learning (NPTEL)** — core neural network architectures and backpropagation, applied to practical model-building exercises.
- **Google IT Support Professional Certificate** — gaining knowledge in IT support, troubleshooting, networking, and system administration.
- **Industrial IoT Markets and Security** — IoT system fundamentals and key security/protection methods.
